

**Fiscal Year 2021 CoC Program Competition
Technical Assistance Workshop Questions & Answers
October 22, 2021**

- 1. On the rating and ranking tool, how will the reviewer find the answers to this checklist? Do we need to include a separate cover summary outlining these requirements and where can the information be found in the ESNAPS application if applicable.**

When submitting your project application, please include an index clearly identifying the applicable sections in the e-snaps application and correlation to the rating and ranking tool. Additional supportive documentation such as the most recent financial audit report, Annual Performance Report (APR) and verification of IVCCC membership must be included in the project application package and clearly identified in the index.

- 2. If question come up later can we still submit them?**

The IVCCC team will be available to provide assistance. Questions can be submitted via email at: ivcccinquiries@co.imperial.ca.us.

- 3. Under the submission requirements apart from the ESNAPS application all that is needed is the Financial Audit and the APR?**

Both the financial audit report and APR need to be attached when submitting your project application. Please see response to question #1.

- 4. For the renewals - Is it a competitive application? Do other get to compete for the renewal monies?**

The renewal application will be scored and ranked, making it a competitive process. However, renewal project funding has already been earmarked by HUD as provided in the following worksheet: [Grant Inventory Worksheet](#).

Is the application the esnap questions then we download and submit?

Applicants must complete an application and upload required attachments in e-snaps. It is important that organizations completing the application do **NOT** hit the "SUBMIT" button in e-snaps. Export and save the application in PDF form and submit three (3) physical copies along with a USB containing an electronic copy as identified in the following document: [IVCCC - Local Notice of Funding](#).

- 5. For the APR report requested. Will another performance period be accepted? Our renewal project operating year is May 2020 - April 2021 as submitted to HUD. Will this be accepted or do you need the July-June period?**

If the system does not allow you to select the July 1, 2020 through June 30, 2021 period, you can submit the most recent available timeframe.

- 6. Is the rating and ranking different for renewals versus new?**

Yes, there are two different scoring and ranking tools. Both tools are available on the IVCCC website and also linked below:

[Tool - New Projects](#)

[Tool - Renewal Projects](#)
